1. Chinese Carmakes – General Situation

Over the last months more and more carmakers from China got into the European Market.

With this Color News we try to answer as much questions about these new brands as we are able to.

We would like to share with you all informations we have today – but still there are holes to fill in.

2. What Do We Have In Update 3/2005?

In the update 3/2005 (coming up in December) you will find **four** new carmakers with European formulae:

- | | |
|---------------|-----------|
| 1. Brilliance | 5 colors |
| 2. Geely | 25 colors |
| 3. Great Wall | 5 colors |
| 4. Jiangling | 9 colors |

Some formulae are just copied from the Chinese formulae if we had no panel available. Thus you will only find formulae for our conventional paint systems.

For the colors we got panels there are also the waterborne formulae available.

Additional carmakers will be inserted if we get panels or formulae from our colleagues in China.

3. Which Carmakers Are Sold Out Of China?

At the moment we know the following:

BYD Auto

Flyer exported to Russia

Brilliance / Jinbei

Cars (Zhonghua) exported to Europe and the Middle-East (Jinbei)

First Auto

Vans exported to Russia

吉利汽车
GEELY AUTOMOBILE

Geely

Cars exported to the Middle-East

Great Wall

Cars exported to Russia

Iritobus

Busses exported to Russia

Jiangling

Cars exported to the Netherlands

Xinkai

Cars exported to Russia

4. What Is Built In China? – Co-operators In China
